EXPERIENCE

Software Engineer
Praavi Work Tool Private Limited

Feb 2025 – Present Gurugram

- Developed a complete, pixel-perfect and fully responsive Attendance Dashboard UI using Next.js, TypeScript, Shadcn UI, and Tailwind CSS.
- Independently built 50% of the Admin Dashboard, integrating APIs with proper state management (React Query, Redux Toolkit) and enhanced user experience through features like infinite scrolling and animations.
- Closely collaborated with the Co-founder during the UI/UX phase—translated designs from Figma into production-ready components.
- Actively contributed to debugging and resolving frontend issues independently, improving product reliability and delivery speed.
- Built and optimized complex dashboards using Next.js, TypeScript, and Redux Toolkit, improving performance and user experience.
- Led UI/UX design using Figma and implemented responsive designs with Tailwind CSS and Shadcn UI.
- Integrated RESTful APIs using React Query and Redux Toolkit for efficient data handling and real-time updates.
- Contributing to a full-stack project with Next.js, React Native , and Java Spring Boot, delivering cross-platform solutions.
